Inside the Villains Year 6 Autumn 1

How are natural resources distributed?

Which country do you think gets the better deal? Which country gets a poor deal?

How can electrical circuits be controlled?

This half term we are being Energy Project Officers. We will be learning about the world’s resources and how they are distributed. We will look at Fairtrade and how we can make the world a better place.

As Scientists, we will learn about living things and their havitats. We will look how different animals, plants and microorganisms are classified and grouped to support identification.

As Geographers, we will learn about the distribution of natural resources and look at how this happens across the world. We will learn about fair trade and discuss our opinions on how different resources affect our planet.

As Artists, we will look at the work of Deborah Harris and try create a monochrome ink collage in her style. We will use different fairy tales to inspire our artwork!

Vocabulary... ask me what these words mean...

Distribution, ethical, exploitation, consumer, organism

Hook

Video from Octopus energy setting us our challenge on what energy source is best for our country.

Outcome

Children to write a letter back to Octopus energy explaining their thoughts on energy useage for the future.

Stand Alone Subjects

In PE, we will learn to...

To attack and defend effectively in netball.

Increase swimming confidence and technique with different strokes.

In Personal Development we will learn about...

How our brain works and how it reacts to different situations. We will also look at shared responsibilities we have and how to show respect and manage hurtful behaviour.

In RE we will think about...

Peace and what this means in the Islamic faith.

In Computing we will learn about...

Computing systems and networks and how they can be used to communicate.

In Music we will be learning about...

Instrumental timbres. We will be looking at the different musical instrument families that make up an orchestra and the different sounds they make both on their own and together.
