Once Upon a Time Year 1 Autumn 1

Can I describe the different materials objects are made from?
Can I represent different characters using music?

This half term we are being **Material Engineers**. We will look at the properties of materials to see how we can group them in different ways.

As **Scientists** we will learning about materials.

As **Engineers** we will be using our knowledge from science to select materials for different purposes, we will explore different ways to join materials and see which is the best. We will then use this

As **Geographers** we will practice our map making skills and will record where we have found different types of materials on our walk around school and the local area.

As **Musicians** we will learn how that music can be used represent mood. We will make our own music to show how the different characters in our stories might feel.

Trips and Visits

As Scientists we will go on a walk around our local area to explore the different materials that we can find.

Vocabulary... ask me what these words mean...

Properties, material. physical, rigid, structure

Hook

Strange items have been left in our classroom from the fairy tale characters. Can we guess who they belong too?

Outcome

Use our knowledge as Material Engineers to design and build a new house for the 3 little pigs.

Stand Alone Subjects

In PE we will learn to...

Show an awareness of how the body functions and changes during exercise.
Throw and catch a ball with accuracy.

In Personal Development we will learn to...

Understand emotions and that we have rules in our classroom and in school that help keep us safe.

In RE we will think about...

Harvest and different celebrations people might have with their family.

In Computing we will learn to...

Explore computer systems and networks.
