Curious Castles Year 1 Autumn 2

This half term we are studying Castles. We will be learning to recognise the main parts of a castle and describe their purpose. We will learn how a castle defended itself and why it needed to and recognise and understand how life was different in the past and to know the roles of different people who lived in a castle.

As Scientists we will be learning about the human body. We will be identifying and naming parts of the human body, including bones.

As Artists we will be looking at the work of Richard Stone and Picasso and learning how to sketch our very own self-portraits.

As Designers we will be using our skills from Autumn 1 to help us design and make a puppet show to entertain those living in a castle.

As Historians we will learn all about life in a castle, who lived inside a castle, why castles were built, where they were built and the different features of a castle.

Trips and Visits

We will be visiting Portchester Castle to identify the different features and see what life was like living in a castle.

Vocabulary... ask me what these words mean...

Drawbridge, moat, keep, bailey, seasonal

Hook

We will be visiting Portchester Castle.

Outcome

Hold a puppet show and art gallery of our self-portraits.

Stand Alone Subjects

In PE, we will learn to...

Throw and receive a ball with basic control.

Swimming

In Personal Development we will...

Learn about similarities and differences between people and understand that it is okay to be different.

In RE we will think about...

Journeys in religion and link this to the Christian Christmas Story.

In Computing we will learn to...

Make a digital painting and compare this to the one we make in our art lessons.

In Geography we will be...

Looking at seasonal changes.
